

**江苏艾力升电缆有限公司**

**JIANGSU ELESUN CABLE CO., LTD**

***About Us  
in 2021***

## Production Line

ELESUN established in 2000, with 15 years history  
Currently, occupy 30000 square meters, 520 employees  
We have more than 200 sets of high-speed braiding machines.

信号控制电缆及非常规特种电缆的研发与制造

## Production Line

- \*16 sets national first-class plastic extruding production lines
- \* three layer co -extrusion foaming machine
- \*the annual putout reaches USD\$50 million

可在线自动调节电缆的电容

## Production Line

We equipped Italian Sikoraag on line testing system, which can adjust monitor and adjust the electric capacitance, out diameter, eccentricity of the cable. We also equipped Swiss Zumbach testing system series production line, which ensure the high quality of the coaxial cable.

## Production Line

By 2013, we bring in 4 sets high temperature plastic extruding production lines, focus on developing high temperature, low loss rf coaxial cable.

## Research&Development

With the rapid development, Elesun pay much attention to since and tech investment. There are 8 engineers in the R&D team, set up a set of sustainable innovation system, including market survey, product argument, product research and development, and market promotion.

## Certification

We have impeccable quality assurance system, the product comply with CCC(China Compulsory Certification), American UL certification, ISO9001.

## Testing Instrument

The laboratory is equipped with 20GHz Agilent net-work analyzer, multiband inter-modulation instrument and other 30 sets of testing machines, which ensure the quality of products.

## Packing Show

Our products are widely used in telecommunication, auto GPS, aerospace, navigation, and electricity. We export our product to America, Germany, Japan, South Korea and middle Asia and also provide good service to the new and old customers.

# Main Products

- Coaxial Cable(SYV/SYWV/D-FB/C-V/RG/Teflon)
- - Control Cable(KVV/KVVP)
- - Electronic Wire (THNN/THWN/UL1007/1015) with UL certification
- - BV/RV wire (LSOH / XLPE)
- - LAN Cable UTP, STP, FTP(AMP)
- (With UL certificate & Rosh)
- And so on, according to the customer.

# Our Advantages

- Qualified Raw Material (Rosh PVC, pure copper )
- Advanced Production Line
- Strict Quality Control
- Sea- worthy Packing
- Quick Delivery(2 weeks after deposit)
- Attentive After-sale Service
